

# Badges For Next Year

## Computer Expert

With computers, girls can make amazing art, find incredible facts on the internet, and send fun cards to friends and family. Girls who earn this badge will be safe and secure computer experts!

## Household Elf

It's great to have a clean home, and even better if it's a clean, green home! In this badge, let the girls pick up some new household habits to help their families save energy, save water, and save the planet.

## Senses

People have five senses that work together to let them see, hear, smell, taste, and touch the world around them. Encourage girls to try all of their senses to earn this badge!

## Inventor

Does your troop ever wonder what it takes to come up with a new kind of phone or a new way to power a light bulb? Do your girls wonder about inventions that would help tie their shoes faster or make elevators record their singing while they ride? In this badge, help the girls discover how inventors create and how girls can become inventors themselves!

## Making Games

Girls can learn how to have fun without a computer, a deck of cards, or even a ball. Games are everywhere when they use their minds and creativity to make them up! With this badge, girls can invent their own games to play with their family, friends, and troop. They will never be bored again!

## Dancer

Get your girls ready to jump up and move to the beat earning this badge. Girls will learn fun warm-ups, perform steps from new dances, and make a dance of their very own.

### Fair Play

Playing fair means that everyone has the same chance to play because everyone follows the same rules. That's what this badge is about. Girls will learn to work together to have the most fun possible. That's fair play!

### My Best Self

We get only one body, so it's important to take care of it. Teach girls to pay attention to what their bodies need and ask for health help if they need it, so they can keep feeling great.

### Painting

Artists take what they see and make it beautiful. While earning their painting badge, girls will learn to paint, color in super strokes, and see what their imaginations can do.

### Pets

Whether they're cute and cuddly or slimy and scary, pets are so much fun. If girls in your troop hope to have a pet someday, use this badge to teach them how to choose the pet that's right for them and make sure the pet stays happy and healthy. Girls can also find out how to take the best care of a pet they already have.

### Snacks

Girls learn to make great snacks for themselves and their friends. Teach girls that healthy snacks will give them the energy to think, hike, run around, dress up, and do all the other activities they love to do.

### Letterboxer

Letterboxing is an amazing adventure game played by people all over the world. Encourage curiosity and join in. To play, girls will follow clues to find a hidden box with special items inside.

### My Family Story

Every family has stories. Girls can share them so they know who helped make them who they are. Girls who do this badge can find out more about the people they love.

### Celebrating Community

Communities often celebrate what makes them special with ceremonies or parades. They might also celebrate by building statues or museums. In this badge, girls will find out what their communities do to celebrate all the people in them.

### Meet My Customers

Girls will learn to find cookie customers and be comfortable selling to them. Girls will use what they know to make sure their personal cookie customers enjoy the purchasing experience.

### Give Back

Girls will learn how businesses help others and how they can do the same thing through their cookie businesses.

### Philanthropist

Girl Scouts make the world a better place. One way to do that is to make sure everyone's basic needs are met. In this badge, girls will explore basic human needs and how they can be a "philanthropist," a person who gives to people who need help.

## Cyber Security

Welcome to the world of cybersecurity! We use computers every day to send emails, watch videos, and shop online. Computers are also a part of our lives in many other ways that aren't as easy to see. Computers power up skyscrapers and streetlights, keep air conditioners and security systems humming, run medical devices in hospitals, control cars and planes, and much more.

Cybersecurity is the way we protect all those computers—

and ourselves—from crime. When you've earned these three badges, you'll know the basics of cybersecurity, what privacy means, and how to protect yourself when you're on a computer.

## Think Like an Engineer

Welcome to the world of mechanical engineering! When you've earned these three badges, you'll know about force and gravity and how they affect speed. You'll also know how engineers design, build, and test a new product. Every day, mechanical engineers invent another machine that can do something new or solve a problem. What kind of machines will we have when you are grown up? Well, you tell us! Once you know how engineers imagine, design, build, and test their inventions, you'll be able to come up with all kinds of cool ideas for new, problem-solving machines!
